Cautionary Statement Regarding Forward-Looking Statements

This presentation may contain forward-looking statements (including within the meaning of the Private Securities Litigation Reform Act of 1995) concerning International Game Technology PLC and its consolidated subsidiaries (the “Company”) and other matters. These statements may discuss goals, intentions, and expectations as to future plans, trends, events, dividends, results of operations, or financial condition, or otherwise, based on current beliefs of the management of the Company as well as assumptions made by, and information currently available to, such management. Forward-looking statements may be accompanied by words such as “aim,” “anticipate,” “believe,” “plan,” “could,” “would,” “should,” “shall”, “continue,” “estimate,” “expect,” “forecast,” “future,” “guidance,” “intend,” “may,” “will,” “possible,” “potential,” “predict,” “project” or the negative or other variations of them. These forward-looking statements speak only as of the date on which such statements are made and are subject to various risks and uncertainties, many of which are outside the Company’s control. Should one or more of these risks or uncertainties materialize, or should any of the underlying assumptions prove incorrect, actual results may differ materially from those predicted in the forward-looking statements and from past results, performance, or achievements. Therefore, you should not place undue reliance on such statements. Factors that could cause actual results to differ materially from those in the forward-looking statements include (but are not limited to) the factors and risks described in the Company’s annual report on Form 20-F for the financial year ended December 31, 2018 and other documents filed from time to time with the SEC, which are available on the SEC’s website at www.sec.gov and on the investor relations section of the Company’s website at www.IGT.com. Except as required under applicable law, the Company does not assume any obligation to update these forward-looking statements. You should carefully consider these factors and other risks and uncertainties that affect the Company’s business. All forward-looking statements contained in this presentation are qualified in their entirety by this cautionary statement.

Non-GAAP Financial Measures

This presentation contains non-GAAP financial measures, including adjusted EBITDA, adjusted operating income, adjusted diluted EPS, and free cash flow. Reconciliations of non-GAAP measures to the most directly comparable GAAP measures are included in the appendix to this presentation.

Comparability of Results

All figures presented in this presentation are prepared under U.S. GAAP, unless noted otherwise.

Adjusted figures exclude the impact of items such as purchase accounting, impairment charges, restructuring expense, foreign exchange, and certain one-time, primarily transaction-related items. Reconciliations to the most directly comparable U.S. GAAP measures are included in the tables in this presentation. Constant currency changes for 2019 are calculated using the same foreign exchange rates as the corresponding 2018 period.

Management uses non-GAAP financial measures to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, and to evaluate the Company’s financial performance. Management believes these non-GAAP financial measures reflect the Company’s ongoing business in a manner that allows for meaningful period-to-period comparisons and analysis of business trends. These constant currency changes and non-GAAP financial measures should however be viewed in addition to, and not as an alternative for, the Company’s reported results prepared in accordance with U.S. GAAP.
